Why it beats an in-house lawyer

Comprehensive legal support — you get the result, not the process

Cost savings

Cheaper than keeping a legal department or even one qualified lawyer

Accountability

By contract, the firm compensates damages in full — unlike an in-house lawyer

Always in touch

No vacations or sick leave; in emergencies — work on weekends and after hours

Flexibility

Not satisfied? The contract can be terminated; firing an employee is far harder

No infrastructure costs

Savings on legal databases, rent, office equipment and taxes

Result

You don't dive into the process — you get ready solutions to legal matters
